

Bigfoot Film Journal

Errata and Updates

PAGE 32: The location of the film site as indicated on the top photo by an arrow is not correct. The site was further to the North/East by about 5mm in the photo, as indicated by the red circle in the adjacent photo.

PAGE 40: The image shown is not Hodgson's store as it was in October 1967. The image shown here shows the store at that time.

PAGE 61: John Green no longer lives in the home shown here. He has moved to a semi-retirement facility in Agassiz.

PAGE 63: These wood carvings no longer stand in front of the Museum of Anthropology. I believe they have been put away. I was unable to find them on the grounds.
