

**2009/SU/00 – Harrison Lake Area. Monkey Just Over Four Feet**

**Tall:** A resident who worked as a gate security man at Harrison Lake had a strange sighting at about 4:00 p.m. in the summer of 2009. On his way to work, he saw what he described as a monkey about 4 feet tall cross the road in front of his car. He exclaimed to himself, “A monkey! Some fool has let loose a damn monkey!” Some time later, he became acquainted with Bill Miller, a local sasquatch researcher, and the resident mentioned his odd experience. He had not considered a sasquatch connection and was not convinced that the “monkey” he saw was a young sasquatch. He insists that what he saw was a monkey or some sort or a chimpanzee. He was adamant that it was not a small person, bear, or any other any other animal known to be in the Harrison area.
