

**2015/08/12 – Avola Area, Highway 5. “It Wasn’t a Man”:** A mother driving with her daughter and granddaughter in the back seat saw a dark figure run across the highway on August 12, 2015 at about 10:15 a.m. The mother saw the oddity cross the road on two legs from left to right at a fair distance with the car traveling at about 60 miles per hour. She called attention to it and both ladies saw it on the shoulder of the road (right side) at a distance of about 30 feet. It then disappeared down a steep embankment. The mother commented that when she saw the figure cross the yellow highway line and later go down the embankment, “I knew by that point that it wasn’t a man.” The daughter offered that the subject was at least 6 feet tall and that it was covered in black hair. The sighting was too brief to see any details. Immediately following the sighting, the mother pulled over and walked back to inspect the spot where the oddity was seen. She took photographs of what appears to be a foot-print on the shoulder of the road (provided below).
