

2016/04/13 – Kennedy River Area (VI). Climbing the Bank: A Port Alberni resident reported that he saw a sasquatch beside Mercer Creek near the Kennedy River at about 10:00 a.m. on April 13, 2016. The resident works in Tofino and while traveling saw what he says was a large, very black sasquatch on the roadside bank. He saw it climbing the bank and with a few big steps disappeared into the bushes. He returned to the spot later and took a photograph of a possible footprint with a cell phone, but such was not distinct. He reported the sighting to a researcher who went to the location and took the first photo seen below. About a week later the researcher went back and saw/photographed another new possible print—second photo seen below.
